

## ITRN 602 Final Exam Review

Thursday, December 13, 7:30-10:15 pm

Closed-book, closed-notes.

Comprehensive and divided about equally between material covered before/after midterm.

About 50 percent longer than midterm, but very similar in terms of format and structure.

I will recycle one or more midterm questions.

### Material covered:

Krugman, Obstfeld, and Melitz:	Chapters 19-22
Blustein:	entire book
Bayoumi:	entire book

### Format of exam:

Expect mostly short but specific questions.

Focus on big ideas, not on footnotes or obscure details.

50 percent on textbook (Hint: review lecture notes)

35 percent on Bayoumi

(Hint: expect one question on each chapter. Example: In Chapter 5, Tamim Bayoumi describes 3 separate beliefs held by academic economists and policymakers which contributed to the 2008 crisis. Briefly explain how each one contributed to the crisis.)

15 percent on Blustein

### Help:

office hours on Wednesday, December 12, 8:00-10:00 pm in our usual classroom
